E-Sukarelawan User Manual

Prepared for Student and NGO/Admin users.

E-SUKARELAWAN ERD

Explanation: This ERD picture shows the main database structure for the system. It explains how users, opportunities, applications, volunteer hours, feedback, and profile records are connected.

1. System Overview

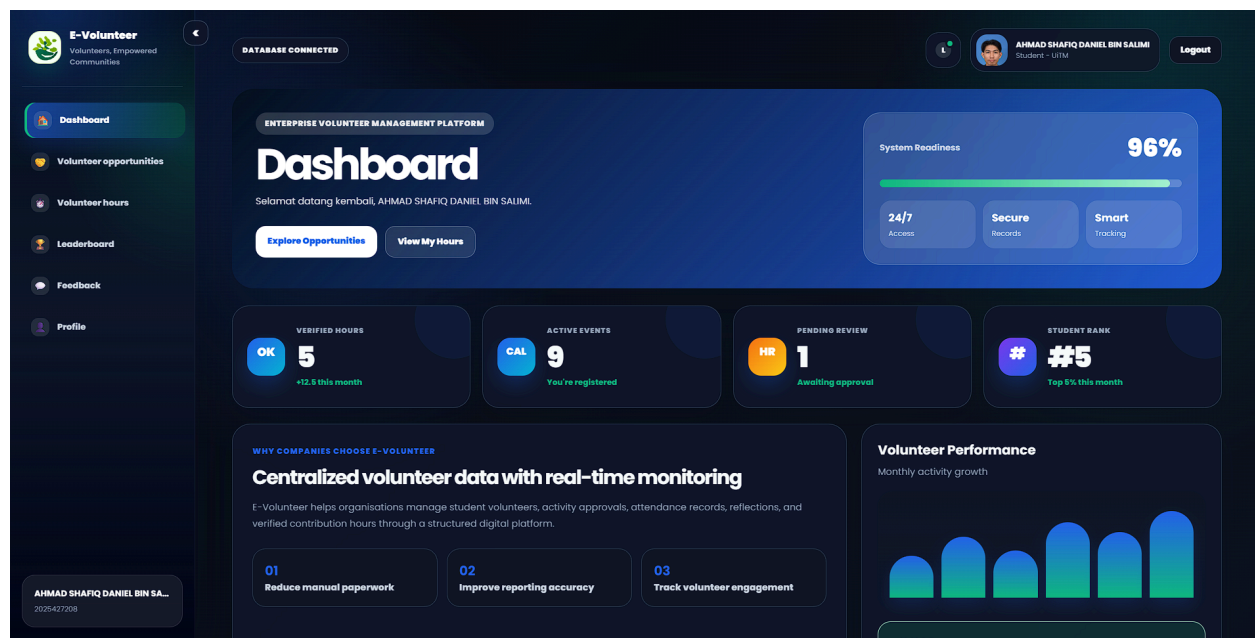

E-Sukarelawan is a volunteer management system that helps students find volunteer opportunities, submit volunteer hours, view rankings, send feedback, and manage their profile. NGO/Admin users manage opportunities, monitor student activity, and review system records.

2. Student User Manual

Student users use the system to search for volunteer activities, apply for opportunities, record hours, check leaderboard status, send feedback, and update their profile.

2.1 Student Dashboard

Explanation: This picture shows the student dashboard. It summarizes the student's verified hours, active events, pending reviews, and ranking, with shortcuts to important student functions.

2.2 Volunteer Opportunities

Explanation: This picture shows the volunteer opportunities page. Students can browse available activities, read event details, check seats and dates, and apply for suitable volunteer programs.

The screenshot shows the 'Volunteer opportunities' page of the E-Volunteer system. The page has a dark theme with a sidebar on the left containing navigation links: Dashboard, Volunteer opportunities (active), Volunteer hours, Leaderboard, Feedback, and Profile. The main content area features a search bar and filters (All, Open, Limited, Closed). Below this, a list of six volunteer opportunities is displayed, each with details on the event, date, and seat availability, along with an application button.

Event	Date	Seats	Status
Langat River Cleanup	24 May 2025	28 seats	Open
Community Tuition Class	31 May 2025	16 seats	Open
Senior Care Visit and Donation Drive	07 Jun 2025	10 seats	Limited
Ramadan Community Kitchen	14 Jun 2025	0 seats	Closed
Community Blood Donation Campaign	03 Aug 2026	35 seats	Open
Recreational Park Cleanup	10 Aug 2026	24 seats	Open

2.3 Volunteer Hours

Explanation: This picture shows the volunteer hours page. Students use this page to enter completed activity hours, add notes, and track whether the submission is still pending or has been reviewed.

The screenshot shows the 'Volunteer hours' page of the E-Volunteer system. The page has a dark theme with a sidebar on the left containing navigation links: Dashboard, Volunteer opportunities, Volunteer hours (active), Leaderboard, Feedback, and Profile. The main content area is divided into two sections: 'Submit hours' and 'Hours log'.

Submit hours

Only admin-approved applications can be used to enter volunteer hours.

ACTIVITY

Select approved activity

1 approved application available. Pending or rejected applications cannot enter hours.

HOURS CONTRIBUTED

EVIDENCE NOTE

Supervisor or attendance reference

Submit for approval

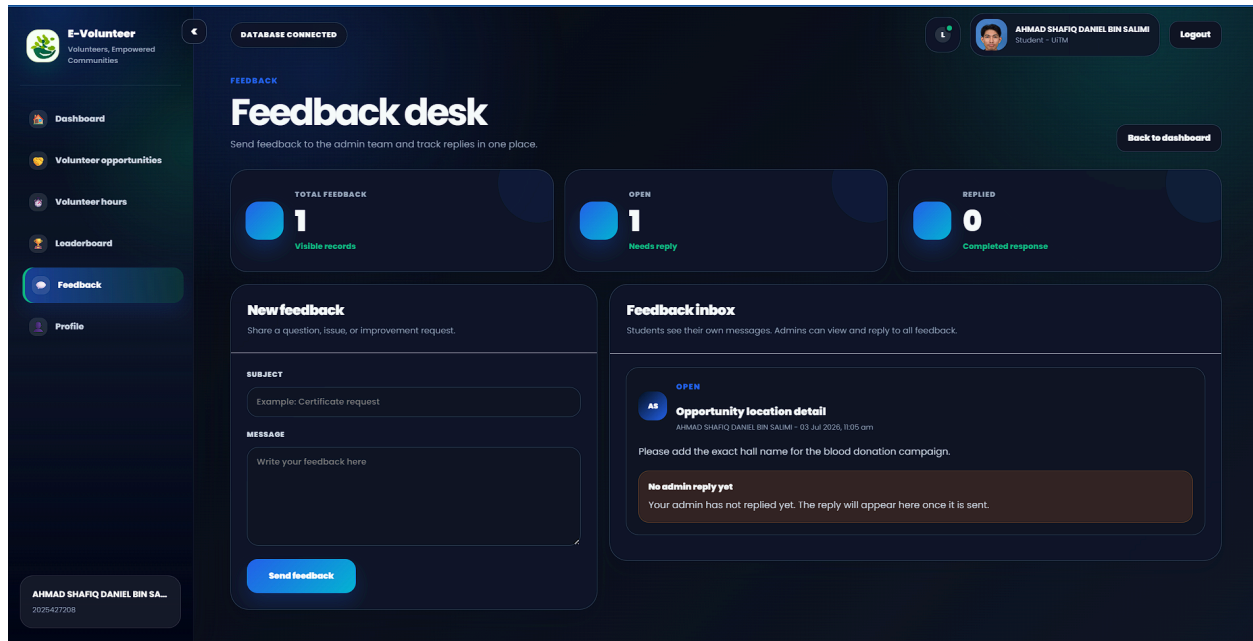

Hours log

Your approved and pending records.

STUDENT	ACTIVITY	HOURS	STATUS
AHMAD SHAFIQ DANIEL BIN SALIMI	Community Blood Donation Campaign Submitted reflection form	3	Pending
AHMAD SHAFIQ DANIEL BIN SALIMI	Community Blood Donation Campaign Helped manage donor waiting area	5	Approved

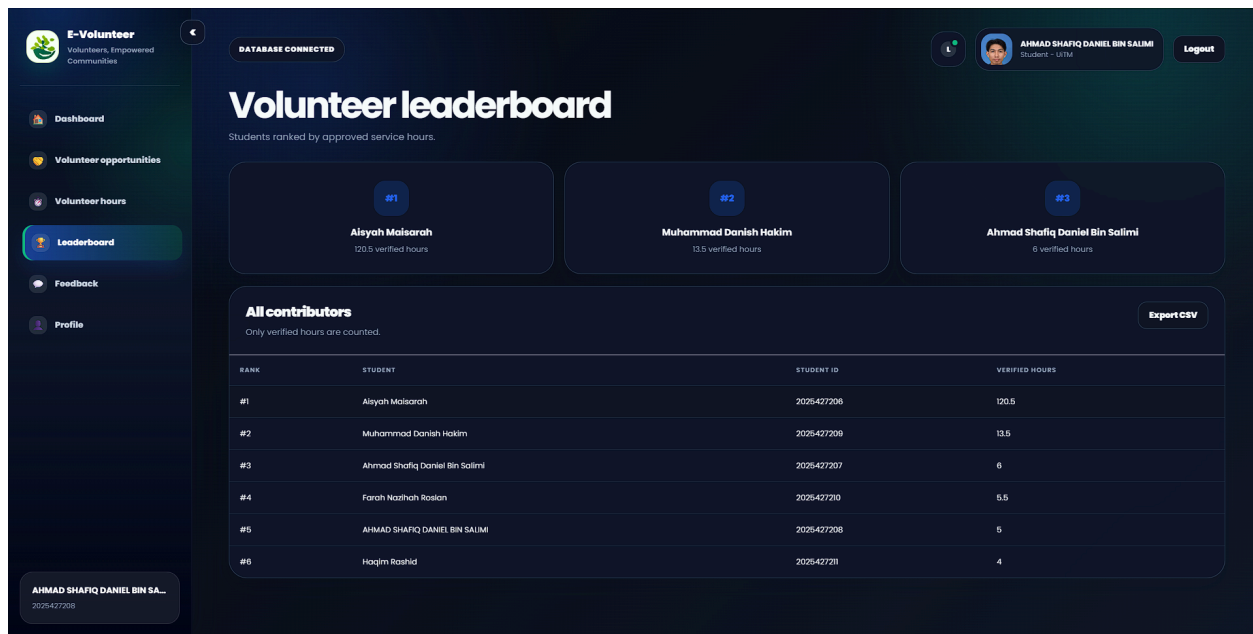

2.4 Feedback

Explanation: This picture shows the feedback page. Students can submit feedback to the admin and later view the admin reply inside the same feedback inbox.

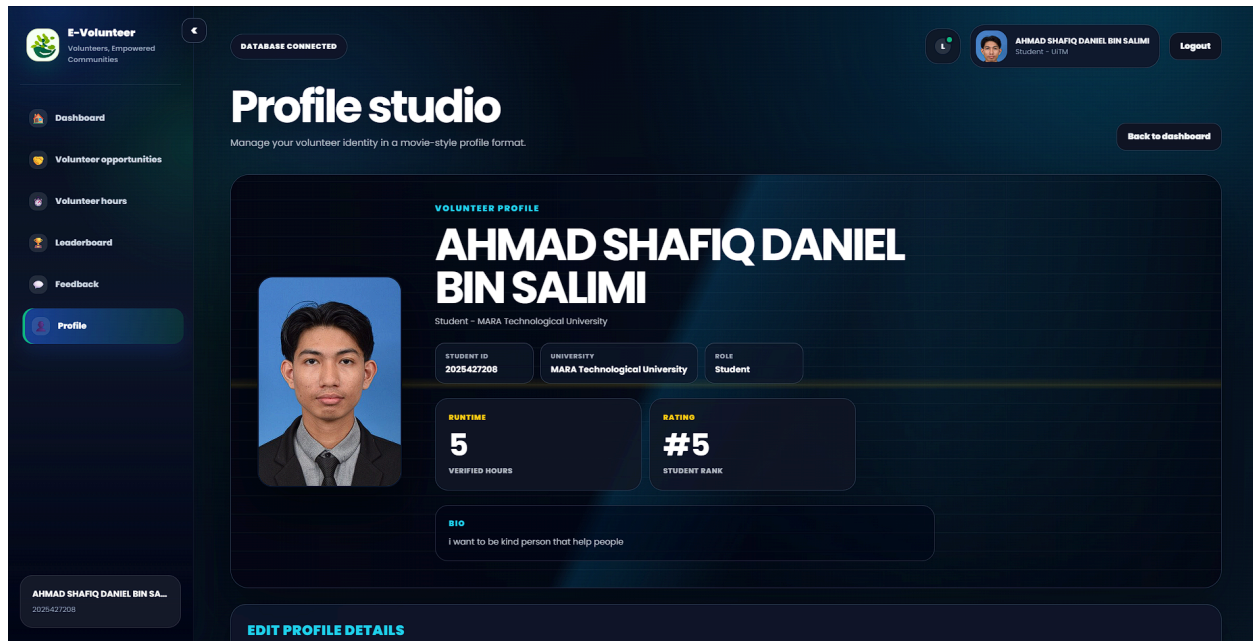

2.5 Volunteer leaderboard

Explanation: This picture shows the leaderboard page. Students can compare verified volunteer hours and see their ranking based on approved contributions.

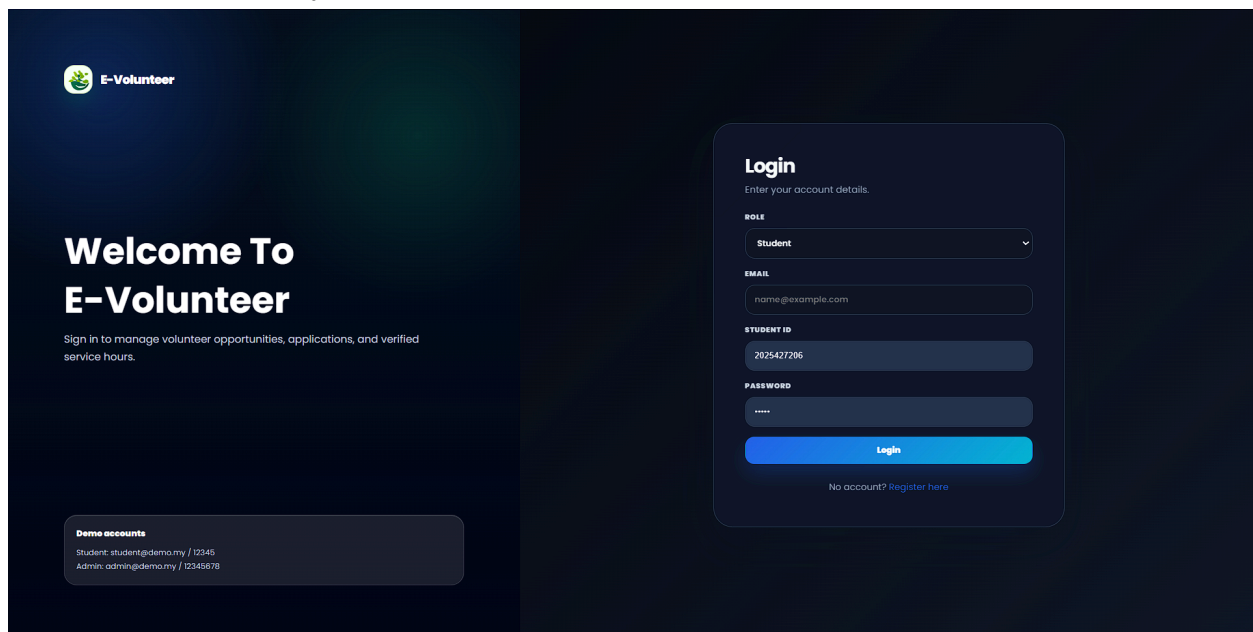

2.6 Profile Studio

Explanation: This picture shows the student profile page. Students can view and update personal information, profile details, and their profile picture so their account stays complete

2.7 Login Page

Explanation: This picture shows the login screen. Users choose their role and enter their account details so the system can direct them to the correct student or admin dashboard.

2.7 Registration page

Explanation: This picture shows the registration screen. New users can create an account by entering the required details before accessing the E-Sukarelawan system.

E-Volunteer

Join the community.

Create a student account to volunteer or an NGO admin account to organise programs.

One account connects your applications, opportunities, and contribution records.

3. NGO/Admin User Manual

NGO/Admin users use the system to manage volunteer opportunities, monitor student participation, check records, respond to feedback, and maintain the overall volunteer workflow.

3.1 NGO/Admin Dashboard

Explanation: This picture shows the NGO/Admin dashboard. It helps the admin monitor overall platform activity, active opportunities, student participation, and important system statistics from one page.

3.2 Volunteer Opportunity Management

The volunteer opportunities page allows NGO/Admin users to create, update, and manage volunteer events. Admin users can enter event details, seats, category, date, and location so students can view and apply for them.

3.4 Feedback desk Admin

Explanation: The feedback page allows administrators to manage, track, and respond to incoming feedback submitted by students.

3.5 Profile Studio Admin

Explanation: This picture shows the admin profile or account details area. Admin users can review and update organization-related profile information so the account stays accurate.

4. Step by Step Installation

Installation Steps

1. Open The GitHub Repository
Go to the project GitHub link:

<https://github.com/Shadan2901/E-Sukarelawan-Volunteer-Hours-Social-Credit>

2. Download The Project File
Click the green **Code** button, then choose **Download ZIP**.
3. Extract The ZIP File
After download finishes, right-click the ZIP file and choose **Extract All**.
Put it somewhere easy to find, for example:

Documents\CSC584\E-sukarelawan

4. Install Apache NetBeans
Download and install Apache NetBeans.
5. Install JDK
Use the JDK included with NetBeans, or install a compatible Java JDK.

Example project JDK path:

C:\Program Files\Apache NetBeans\jdk

6. Install Apache Tomcat
Install Apache Tomcat 10 or later because this project uses Jakarta EE.
7. Install MySQL
Install MySQL Server and MySQL Workbench.
8. Create The Database
Open MySQL Workbench and create the database.
Then run the SQL script from the project if provided.
9. Open The Project In NetBeans
Open NetBeans, then select:

File > Open Project

Choose the extracted E-sukarelawan project folder.

10. Check Database Connection
Make sure the database name, username, and password match your MySQL setup.
11. Clean And Build
Right-click the project in NetBeans and choose:

Clean and Build

12. Run The Project

Right-click the project again and choose:

Run

13. Open The Website

The system should open in your browser. If not, use a URL like:

<http://localhost:8080/E-sukarelawan-1.0-SNAPSHOT/>

14. Login Or Register

Register a new account or login using an existing account.

Note

If Clean and Build fails because the target folder cannot be deleted, stop Tomcat first, then try again.

5. Quick Function Summary

Student functions

- Dashboard - view volunteer progress and shortcuts.
- Volunteer opportunities - browse and apply for activities.
- Volunteer hours - submit and track volunteer hour records.
- Leaderboard - compare volunteer ranking.
- Feedback - send messages and view admin replies.
- Profile - update personal details and profile picture.

NGO/Admin functions:

- Dashboard - monitor overall system activity.
- Volunteer opportunities - create and manage events.
- Volunteer hours - review submitted volunteer records.
- Leaderboard - view student ranking and performance.
- Feedback - read and reply to student feedback.
- Profile - update organization/admin profile details.
